Guarantees

Death benefit guarantee	If you pay the required minimum premium for the first 10 policy years or until you hit age 75, whichever is earlier, but not less than five policy years, and do not take policy loans or withdrawals, your policy will be guaranteed not to lapse during the death benefit guarantee period.
Guaranteed Accumulation Value	The Guaranteed Accumulation Value earns fixed interest and incurs policy charges at guaranteed rates. The 0.10% minimum fixed interest rate and the maximum policy charges are applied in all policy years.

Interest crediting

Indexed allocation options	To learn more about indexed allocation options – including crediting methods and indexes available with Allianz Life Pro+® Advantage Fixed Index Universal Life Insurance Policy – refer to Your guide to allocation options (M-7391).
Fixed interest allocation	A fixed interest allocation is available for all or a portion of your policy’s cash values. The fixed interest rate is guaranteed to never be less than 0.1%. Ask your financial professional for the current interest rate.
Annual reset	Your accumulation value is locked in each policy anniversary.
Index Lock	<p>With Index Lock, you have the ability to lock in an index value one time at any point during the crediting period. Only available with certain index allocations.</p> <p>Because the Index Lock occurs at the end of the business day, depending on when the lock is requested, the index value may be more or less than the value at the time of the request. Exercising an Index Lock may result in a credit higher or lower than if the Index Lock had not been exercised.</p> <p>See CSI-512 for more information on the Index Lock feature.</p>

⁴Policy loans and withdrawals will reduce the available cash value and death benefit and may cause the policy to lapse, or affect guarantees against lapse. Withdrawals in excess of premiums paid will be subject to ordinary income tax. Additional premium payments may be required to keep the policy in force. In the event of a lapse, outstanding policy loans in excess of unrecovered cost basis will be subject to ordinary income tax. If a policy is a modified endowment contract (MEC), policy loans and withdrawals will be taxable as ordinary income to the extent there are earnings in the policy. If any of these features are exercised prior to age 59½ on a MEC, a 10% federal additional tax may be imposed. Tax laws are subject to change and you should consult a tax professional.
