# We focus on results.

At Allianz, we understand that the savings you work hard to accumulate have a value beyond the numbers. Your savings represent your dreams for the future, your goals, and the security you need to enjoy the life you want.

That's why we've built our company around a commitment to being true: We're true to our customers. We're true to our promises. And we're true to our investment philosophy.

We have a conservative investment management philosophy designed to weather all market conditions and achieve long-term results, based on:

- Diversification across asset types
- High credit rating requirements
- Strong risk modeling
- A high level of liquidity

We utilize extensive risk management capabilities. By monitoring and managing risks in real time, we are provided with the potential to hedge against general market turbulence. Allianz Investment Management U.S. LLC (AIM US), a wholly owned subsidiary of Allianz Life Insurance Company of North America, provides hedging and investment management services to the broader Allianz Group.

Our approach to risk management also allows us to design innovative products. As a leader in fixed index and registered index-linked annuities, we create products that help consumers build their assets over the long term – and receive income for life – while managing risk.
