

Index Lock

step by step

Index Lock and Auto Lock are features available on select fixed index annuities.

Index Lock allows you to manually lock in an index value once each crediting period – so you can capture the index gain on any business day you choose, rather than having to wait until the end of the crediting period. Auto Lock lets you set a target¹ index interest rate percentage that, if reached, will automatically activate an Index Lock at the end of the business day once the target is reached. This step-by-step guide shows you how to perform an Index Lock transaction and set upper and lower Auto Lock targets online.

TO LEARN MORE ABOUT INDEX LOCK AND AUTO LOCK, contact your financial professional and see CSI-504 for full details and business rules.

This material must be used with an applicable fixed index annuity product brochure.

¹Setting targets authorizes Allianz to automatically activate an Index Lock once the target is reached, based on the index interest rate percentage at the end of the business day. Targets need to be renewed after each crediting period unless auto-renewal is active. Because of this, your index interest rate percentage may be greater than your upper target or less than your lower target.

Guarantees are backed by the financial strength and claims-paying ability of Allianz Life Insurance Company of North America.

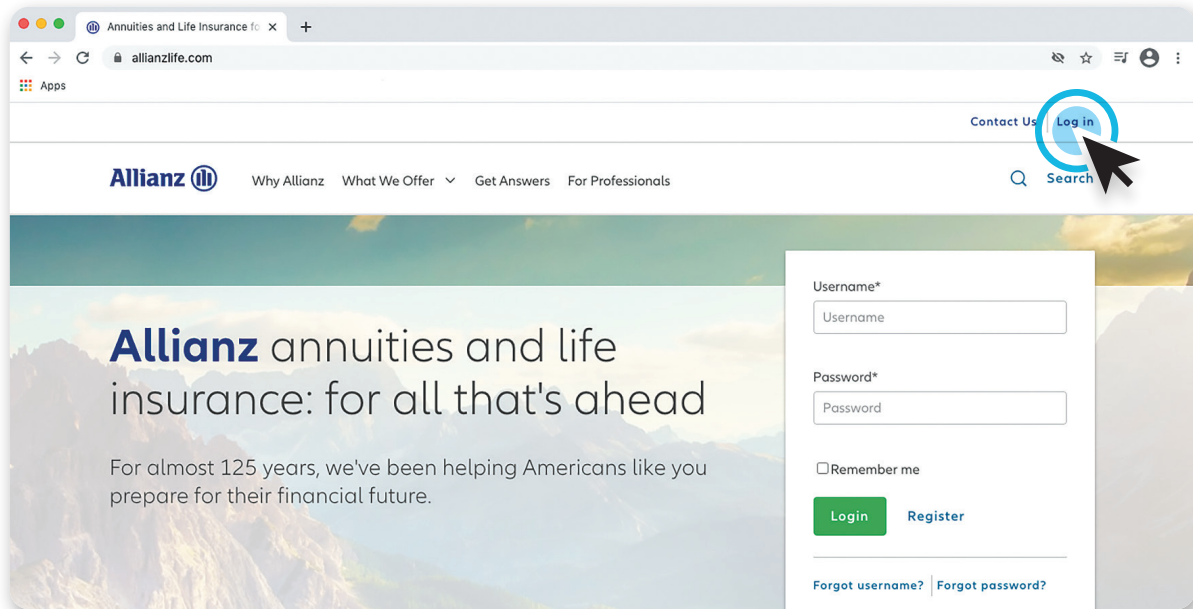

Products are issued by Allianz Life Insurance Company of North America, PO Box 59060, Minneapolis, MN 55459-0060. 800.950.1962. www.allianzlife.com

How can you apply an Index Lock or set Auto Lock targets?

You can track and view index values anytime online.

Start by either creating or logging in to your account at www.allianzlife.com, and navigate to the policy details page.

Under **"Allocation and Index Performance,"** you will be able to view the Index Interest Rate percentage for each Indexed Allocation and whether an Index Lock or Auto Lock is available for that allocation.

Allocation and Index Performance - Values as of January 28, 2022

Allocation Option	Allocated %	Allocated \$	Allocation Charge %	Bonus Control Benefit Option	Crediting Period		Starting Index Value	Current Index Value	Participation Rate %	Auto Lock		Index Lock		Auto Renew (Upper Target Only)
					Start	End				Upper Target	Lower Target	Index Interest Rate %	Lock	
Fixed/Link (50/50) Classic® ER Index Annual Participation Point with a Participation Rate®	34.00	\$6,000.00	0.95	Retained	01/27/2020	01/27/2024	124.02	125.76	65.00	23.49	--	0.95	Unlocked	Yes

Change Allocation Index Lock / Set Targets

Select the **"Index Lock / Set Targets"** button to complete an Index Lock.

The figures shown are hypothetical and do not represent an actual client or contract.

Acknowledgements

Before completing the request for an Index Lock, you must read and acknowledge the following points:

- ☒ I understand values being displayed are as of the end of the prior Business Day.
- ☒ I understand that if a Manual Lock is requested, the locked-in value may be higher or lower than the Index Value at the time of the request because the lock is executed at the end of the Business Day.
- ☒ I understand that by setting a target through Auto Lock, I am authorizing Allianz to automatically execute an Index Lock at the end of a Business Day in which a target is reached. I understand that the locked-in value may end up being greater than my upper target or less than my lower target because the percentage at the end of the Business Day is locked. I understand that I will have to reset my Index Lock(s) after each crediting period.
- ☒ I understand that with both Manual and Auto Locks, the lock will not process if the Index Value is zero or below market value.

CHOOSE

In the far right columns, you will see the option to add or change an Upper or Lower Target, as well as a checkbox next to any Indexed Allocation that can be manually locked. Here you can set an Upper Target and/or Lower Target by following the instructions. Or you can select the checkbox to perform a manual Index Lock. Then select the "Continue" button.

Index Lock

Policy #: 12345678

Owner: Jane Smith

Your Index Lock will be processed if the request is submitted by the end of the Business Day as noted by the clock above. For a **Manual Lock**, your Index Value will be locked at the end of the Business Day in which the lock was processed. For an **Auto Lock**, your Index Value will be locked at the end of the Business Day in which your target has been reached.

Instructions:

To set an "Upper Target" please enter a value that is greater than the current Index Interest Rate %.

To set a "Lower Target" please enter a value that is less than the current Index Interest Rate %.

To clear your current Targets, delete current value(s).

After making selections, click Continue to review and submit.

Select upper targets for auto renew each index anniversary

Your **Auto Renew** will be processed if the request is submitted by the end of the Business Day before the contract anniversary as noted by the clock above. If you select **Auto Renew**, your target will be automatically set on the next crediting period and all crediting periods going forward. Once selected, **Auto Renew** will remain on an Indexed Allocation until you remove it. **Auto Renew** is only available on upper targets for annual/1-year allocation options.
