

The time is now for in-plan guaranteed lifetime income

Now more than ever, employees and even job seekers are looking to employers to help them solve their financial wellness challenges and address the financial risks they face – especially in retirement. Meeting these evolving needs can help attract and retain talent.

While tremendous progress has been made to help plan participants save for retirement, few have been able to effectively transition those savings to a lifetime stream of income – until now. Allianz Lifetime Income+SM Annuity with the Lifetime Income Benefit is a fixed index annuity that offers guaranteed retirement income that is easily added to any defined contribution retirement plan.

Fixed indexed annuities are designed to meet long-term needs for retirement income. They provide guarantees against the loss of principal and credited interest, tax-deferred accumulation potential, and the reassurance of a death benefit for beneficiaries.

Almost 80% of participants state that having an option that allows me to build a protected foundation for lifetime income would demonstrate my employer has a vested interest in my retirement readiness and well-being.¹

Guaranteed Lifetime Income	<ul style="list-style-type: none"> • Offers flexibility in starting income (age 60 or older) to help your participants transition to retirement on time • Provides income that a participant cannot outlive and that can increase to help address inflation • As an insurer, we're uniquely able to offer guarantees and income protected from market downturns
Low Costs	<ul style="list-style-type: none"> • No additional costs for plan sponsors to add Allianz Lifetime Income+SM to the plan • The annual product fee is 0.50%, which is well below most retail annuities and competitive with many plan investment options • The fee is guaranteed not to increase, even if the participant leaves the plan and rolls the annuity into an IRA
Simplified	<ul style="list-style-type: none"> • Easily integrated with existing enrollment, managed account, and financial wellness solutions • Fully digital enrollment, guidance, and service experience
Flexible	<ul style="list-style-type: none"> • Offered as a stand-alone investment option or within a managed account and is eligible as a Qualified Default Investment Alternative (QDIA) • Participants can contribute to the annuity when they want (as the plan allows), choose when income starts at age 60 or older, pause income payments, and even withdraw account value with no surrender charges (Market Value Adjustment may apply)
Portable	<ul style="list-style-type: none"> • Unlike a group annuity, this is an individual contract and all benefits, guarantees, and pricing carry with the contract, if a participant leaves the plan or the plan removes the option from the lineup • Fully portable at the plan level when changing record keepers
