¹Policy loans and withdrawals will reduce the available cash value and death benefit and may cause the policy to lapse, or affect guarantees against lapse. Withdrawals in excess of premiums paid will be subject to ordinary income tax. Additional premium payments may be required to keep the policy in force. In the event of a lapse, outstanding policy loans in excess of unrecovered cost basis will be subject to ordinary income tax. If a policy is a modified endowment contract (MEC), policy loans and withdrawals will be taxable as ordinary income to the extent there are earnings in the policy. If any of these features are exercised prior to age 59½ on a MEC, a 10% federal additional tax may be imposed. Tax laws are subject to change and you should consult a tax professional.

²The death benefit is generally income-tax-free when passed on to beneficiaries.

Exercising an Index Lock may result in a credit higher or lower than if the Index Lock had not been exercised. The Auto Lock feature may be discontinued at any time. Guarantees are backed solely by the financial strength and claims-paying ability of Allianz Life Insurance Company of North America.
