

Adam Brown

SVP Actuarial Product Development

Background

With more than 15 years in the financial services industry, Brown has broad experience in annuity and life insurance product development, investments, hedging, reinsurance, and risk management.

Experience

- More than 17 years with Allianz Life, currently overseeing the actuarial product development team that's responsible for the research and development of innovative products to drive the long-term growth and sustainability of Allianz Life – including defining risk management strategies and achieving profitability targets.
- Leads the Reinsurance management team to partner with leading reinsurers to support growth and risk management strategies of Allianz Life.
- Partners with financial professionals to provide a better understanding of the risk management philosophy and strategies that Allianz employs.
- Speaker at industry events on product innovation in the annuity and life insurance industry, risk management solutions employed by Allianz Life, and broader industry trends.

Education, certifications, and memberships

- B.S. in Actuarial Science from University of St. Thomas (Minnesota)
- B.A. in General Business Management from University of St. Thomas (Minnesota)
- Fellow of the Society of Actuaries
- Member of the American Academy of Actuaries

FOCUSED ON

- Product innovation in the annuity and life insurance market
- Insurance company product and risk management, reinsurance, investment, and hedging processes
- Allianz Life thought leadership studies
