# Allianz Life Pro+ Elite<sup>SM</sup>

Fixed Index Universal Life Insurance Policy

## Agent guide

P

For financial professional use only.  
Not for use with the public.

For all that's ahead.®

Allianz 

# Add a powerful, versatile tool to your clients' overall financial strategy.

No one can predict their future financial needs with certainty. That's one reason to consider adding a solution that provides protection today, plus flexibility for the future.

Allianz **Life Pro+ Elite<sup>SM</sup>** Fixed Index Universal Life Insurance Policy can help provide death benefit protection, tax-deferred accumulation potential, and flexible options that adapt as your clients' needs change – all with one product:

- **Elite protection:** Allianz Life Pro+ Elite not only provides a death benefit that's generally income-tax-free – but also gives clients the **coverage they can afford today** with the ability to convert down the road with the **Supplemental Term Rider**.<sup>1</sup>
- **Elite accumulation potential:** Enhance **tax-deferred accumulation potential** with an interest bonus starting in year 1 (available on certain index allocation options), plus protection from market losses.
- **Elite flexibility:** Your clients can access **income-tax-free loans or withdrawals**<sup>2</sup> to supplement retirement income, complement a college funding strategy, or pay for emergencies.

## Typical client concerns:

- Income replacement in the event of premature death
- Access to funds for future needs
- Continuing their current lifestyle in retirement
- Outliving retirement savings
- Supplementing a college funding strategy
- Maintaining their lifestyle in the event of a chronic illness
- Strategies for the continuation of a business

<sup>1</sup> See Supplemental Term Rider information later in this guide.

<sup>2</sup> Policy loans and withdrawals will reduce the available cash value and death benefit and may cause unintended consequences, including lapse or taxable events. Please see the full loan and withdrawal disclosure within this material for details.

For financial professional use only – not for use with the public.

## Allianz Life Pro+ Elite key product benefits

<b>Issue ages</b>	0-80			
<b>Risk classes</b>	Nontobacco (ages 18-80)			
	<ul style="list-style-type: none"> <li>• Preferred Plus Nontobacco</li> <li>• Preferred Nontobacco</li> <li>• Standard Nontobacco (Standard rates apply through Table 2)</li> </ul>			
	Tobacco (ages 18-75)			
	<ul style="list-style-type: none"> <li>• Preferred Tobacco</li> <li>• Standard Tobacco (Standard rates apply through Table 2)</li> </ul>			
	Juvenile (ages 0-17) <sup>1</sup>			
<b>Death benefit</b>	\$100,000 is the minimum death benefit on the primary insured.			
	\$50,000 is the minimum increase in death benefit on the insured.			
<b>Premium bands</b>	\$65,000,000 is the maximum death benefit on the insured (subject to limitations).			
	<ul style="list-style-type: none"> <li>• Internal retention and autobind limits<sup>2</sup></li> </ul>			
<b>Premium bands</b>	\$100,000-\$299,999	\$300,000-\$499,999	\$500,000-\$999,999	\$1,000,000+

Please call our life underwriters if your client is over age 70, is a professional athlete, is in the entertainment industry, participates in private aviation, or is a large case with target premium over \$200,000.

### Death benefit options

- **Death benefit option A (level):** The death benefit will be equal to the specified amount less any partial surrenders or outstanding policy loans.
- **Death benefit option B (increasing):** The death benefit will be equal to the specified amount plus the accumulation value less any partial surrenders or outstanding policy loans.
- **Death benefit option C (return of premium):** The death benefit is equal to the specified amount plus the premium that is paid into the policy less any partial surrenders or outstanding policy loans. Only available at issue, and cannot be changed to option B.

### Tax compliance test

The test must be chosen at time of application and cannot be changed after issue:

- Guideline premium test
- Cash value accumulation test

### Minimum premium

Based on age, gender, risk class, death benefit, and riders, but never less than \$25/month or \$300/year

<sup>1</sup> Risk class change is available at age 18 subject to current evidence of insurability.

<sup>2</sup> Death benefits greater than our internal retention, autobind, or jumbo limits will need reinsurance consideration.

For financial professional use only – not for use with the public.

**ALLIANZ LIFE  
PRO+ ELITE**

provides the  
policyholder flexibility  
and access to the  
potential cash value  
while the insured  
is living.

## Premium Deposit Fund Rider<sup>1</sup>

The Premium Deposit Fund (PDF) Rider combined with Allianz Life Pro+ Elite provides all of the tax advantages of life insurance with the simplicity of a single lump-sum payment. Your client submits a lump-sum amount to the PDF and we automatically transfer the annual planned premium payments into the life insurance policy.<sup>2</sup> Your clients will receive the current Premium Discount Rate as the premium is transferred from the PDF into the life insurance policy<sup>3</sup> – which means that their out-of-pocket premium is discounted.

## At age 120

When the insured turns 120, the death benefit equals the accumulation value. All loans will be allocated to the fixed allocation and will be charged the preferred loan rate.

## Death benefit

- The death benefit increases by 10% if the beneficiary(ies) chooses to take policy proceeds over a period of 10 years or longer. The death benefit increase may be taxable.
- Death benefit settlement provisions
  - Option A: Installments for a guaranteed period of five to nine years
  - Option B: Installments for a guaranteed period of 10 to 30 years
  - Option C: Installments for life with a guaranteed certain
  - Option D: Installments of a selected amount for five to nine years
  - Option E: Installments of a selected amount for 10 years to 30 years
  - Option F: Installments over life and joint survivor
- The death benefit is also payable in a single lump sum.

## Access to the cash value

There are several ways to access the policy's potential cash value accumulation without incurring surrender charges while the insured is still living:

- **Fixed interest loans:**<sup>4</sup> Fixed interest loans can be taken from the policy anytime there is available cash value.
  - **Policy years 1-10:** 2.91% charge, 2% credit
  - **Policy years 11+:** 1.96% charge, 2% credit
- **Indexed loan:**<sup>4</sup> This type of loan offers competitive loan amounts with an interest rate that's locked in at 5% and won't change for the life of the policy. The policy's cash value can still receive indexed interest when an indexed loan is taken. At the time the loan is taken, interest is payable in advance and is deducted from the cash value. The loan amount continues to earn indexed interest. The interest charge of the loan can be reduced by the potential credited indexed interest, but there is no guarantee the policy will earn indexed interest.
- **Partial withdrawal:**<sup>5</sup> A partial withdrawal (or "partial surrender") from the policy may be requested if the need arises. Partial withdrawals reduce policy values (including the death benefit) and may be subject to a maximum charge of \$50. Partial withdrawals could also affect the death benefit guarantee.
- **Full surrender:** If the request of a full surrender occurs during the policy's surrender period (12 years), a full surrender charge will apply. The surrender charge is based on age, gender, risk class, and death benefit amount.

<sup>1</sup> May not be available in all states.

<sup>2</sup> Minimum number of planned premium transfers is three, and the maximum number of premium transfers is 10.

<sup>3</sup> The Premium Discount Rate is guaranteed on an annual basis and will never be less than 0.25%. It does not apply to first-year premium.

<sup>4</sup> Policy loans and withdrawals will reduce the available cash value and death benefit and may cause the policy to lapse, or affect guarantees against lapse. Withdrawals in excess of premiums paid will be subject to ordinary income tax. Additional premium payments may be required to keep the policy in force. In the event of a lapse, outstanding policy loans in excess of unrecovered cost basis will be subject to ordinary income tax. If a policy is a modified endowment contract (MEC), policy loans and withdrawals will be taxable as ordinary income to the extent there are earnings in the policy. If any of these features are exercised prior to age 59½ on a MEC, a 10% federal additional tax may be imposed. Tax laws are subject to change and your clients should consult a tax professional.

<sup>5</sup> Withdrawal and partial surrender terms can be used interchangeably and are referenced as partial surrenders in the policy.

For financial professional use only – not for use with the public.

## Access to the death benefit

- **Terminal Illness Accelerated Death Benefit Rider:**<sup>1</sup> If the insured is diagnosed with a terminal illness that results in a life expectancy of 12 months or less, 100% of the policy's death benefit (up to \$1 million) is available while the insured is still alive. The insured will receive a payment at the time it is taken equal to the accelerated benefit amount discounted for one-half year's interest using the maximum loan charge. This benefit is subject to eligibility conditions that may vary by state. Receipt of benefits may be taxable, and your client should consult their tax advisor.
- **Chronic Illness Accelerated Death Benefit Rider:**<sup>1,2,3</sup> Subject to certain age and underwriting requirements, this rider may be included with your client's policy at the time it is issued. The Chronic Illness Accelerated Death Benefit Rider allows the policy owner to accelerate the death benefit if the insured becomes chronically ill or cognitively impaired (under specific criteria). A portion of the death benefit can be accelerated once every 12 calendar months and is available in a lump sum only. The maximum Chronic Illness Accelerated Benefit available per policy is \$1,000,000.

## Guarantees

- **Policy Protection Period guarantee:** If your client pays the minimum premium amount without taking policy loans or withdrawals, the policy is guaranteed not to lapse per the guidelines below.

Issue age	Policy Protection Period in policy years
0-65	10
66	9
67	8
68	7
69	6
70-80	5

Guarantees are backed by the financial strength and claims-paying ability of Allianz Life Insurance Company of North America (Allianz).

<sup>1</sup> This rider may not be available in all states and the name may vary by state.

<sup>2</sup> The Chronic Illness Accelerated Death Benefit Rider is included with the policy, subject to age and underwriting requirements. There is a fee charged as a discount factor against every accelerated payment if the rider is exercised. The discount factor is based on age, premium class, current cash value of the policy, and current discount factor interest rate at that time. The maximum discount factor is determined by the life expectancy of the insured and the discount factor at the time of acceleration.

<sup>3</sup> This rider is not available if the insured is under age 18.

For financial professional use only – not for use with the public.

# Interest crediting

Allianz Life Pro+ Elite allows a variety of index options.

## Index allocations

Your clients may select options in increments of 1% and change selections on every policy anniversary.

Their index options are:

- Allianz True Balance™
  - S&P 500® Index (50%)
  - Bloomberg Barclays US Aggregate RBI® Series 1 Index (50%)
- Blended index
  - Dow Jones Industrial Average (35%)
  - Bloomberg Barclays US Aggregate Bond Index (35%)
  - EURO STOXX 50® (20%)
  - Russell 2000® Index (10%)
- Bloomberg US Dynamic Balance II ER Index
- Bloomberg US Dynamic Balance Index II
- PIMCO Tactical Balanced ER Index
- PIMCO Tactical Balanced Index
- S&P 500® Index

Their crediting method options are:

- Annual point-to-point
- Annual sum
- Trigger method
- Monthly average
- Monthly sum

In addition, your clients can also choose between index allocations that include the opportunity to earn an interest bonus each year, or index allocations that do not include an interest bonus option. The chart below represents available index allocations.<sup>1</sup> Although an external index may affect interest credited, the policy does not directly participate in any equity or fixed income investments. Clients are not buying shares in an index.<sup>2</sup>

For detailed information on the crediting methods and how they work, please refer to the descriptions in this guide. Availability of index allocations may vary by state.

## INTEREST CREDITING

Bonused allocation options	ANNUAL POINT-TO-POINT	MONTHLY AVERAGE	MONTHLY SUM	TRIGGER	ANNUAL SUM
Blended index	yes	yes	no	no	no
S&P 500® Index	yes	no	yes	yes	no
Bloomberg US Dynamic Balance II ER Index	yes	no	no	no	no
Bloomberg US Dynamic Balance Index II	yes	no	no	no	no
Allianz True Balance	no	no	no	no	yes
PIMCO Tactical Balanced ER Index	yes	no	no	no	no
PIMCO Tactical Balanced Index	yes	no	no	no	no

Standard allocation options	ANNUAL POINT-TO-POINT	MONTHLY SUM	ANNUAL SUM
Blended index	yes	no	no
S&P 500® Index	yes	yes	no
Allianz True Balance	no	no	yes

<sup>1</sup> The cap and/or participation rate will vary based on whether the index allocation option(s) selected offer(s) a bonus. In addition, the index allocations that offer the interest bonus will generally have lower caps and participation rates. Bonus products may include higher surrender charges, longer surrender periods, lower caps, or other restrictions that are not included in similar products that don't offer a bonus. There is no guarantee that a policy will be credited with an interest bonus every year as it is based on the growth of an index.

<sup>2</sup> The indexes available within the policy are constructed to keep track of diverse segments of the U.S. or international markets, or specific market sectors. These indexes are benchmarks only. Indexes can have different constituents and weighting methodologies. Some indexes have multiple versions that can weight components or may track the impact of dividends differently. Although an index may affect your interest credited, you cannot buy, directly participate in or receive dividend payments from any of them through the policy.

## Crediting methods<sup>1</sup>

- **Annual point-to-point:** This method tracks changes in an index from one policy anniversary to the next. There are two variations available that have either a cap or participation rate, and may have an annual floor. With a positive change in the index from the previous year, a cap or participation rate may be applied and can affect how much indexed interest would be credited to the policy. With a negative change in the index from the previous year, the indexed interest for that year would be zero or equal to the annual floor, if applicable. Indexed interest would also equal the annual floor if the positive change in the index is less than the annual floor. Each of the current caps, participation rates, and annual floors is subject to change on an annual basis and each has a guaranteed minimum rate.
  - **Annual point-to-point with a cap** – minimum cap 0.25%
  - **Annual point-to-point with a participation rate** – minimum participation rate 5%
- **Annual sum:** This method tracks the annual change for each individual index from one policy anniversary to the next. If the change is greater than the annual cap, then the annual change will equal the cap for the index. There is no limit if the annual change is less than zero. We apply the weights for each index to the annual change. After the weights are applied, the sum of the weighted changes is multiplied by the participation rate and applied to the policy. If the final value is negative, the interest credited will be zero. The cap, weights, and participation rate will affect how much indexed interest is credited. The current participation rate is guaranteed to be 200% for the life of the policy, while the cap is subject to change on an annual basis and is guaranteed not to go below 0.10%.
- **Trigger method:** This method tracks changes in the S&P 500<sup>®</sup> Index from one policy anniversary to the next. Any change greater than or equal to zero would result in the current Trigger Interest Rate credited to the policy, which is subject to change on an annual basis and is guaranteed to not go below 0.25%. In years when the index performance is greater than the Trigger Interest Rate, the potential indexed interest credited to the policy would be capped at the current Trigger Interest Rate. If the result is negative (less than zero), 0% would be credited to the policy.
- **Monthly average:** With this method, we track the monthly index values. At the end of the policy year, we add up those index values and divide them by 12 to determine the average. We then subtract the starting index value from the average to determine the amount of positive or negative change in the index. This amount is divided by the starting value to determine the percentage of annual change. If the results are negative, indexed interest for that year would be zero. A positive result is multiplied by the participation rate to determine the indexed interest rate. Allianz will establish the participation rate at issue and on each policy anniversary. This participation rate is guaranteed to never be less than 5%.
- **Monthly sum:** Every month, the company tracks the positive and negative monthly changes in the market index(es). Each positive monthly change is subject to a cap while the negative monthly change is not subject to a cap. At the end of each year, the 12 monthly changes are added up and, if positive, the total would be credited to the policy. If the total is negative, the indexed interest for that year would be zero. The cap is subject to change on an annual basis and is guaranteed to never be less than 0.50%. The participation rate is guaranteed to be at least 100% over the life of the policy.

<sup>1</sup> Not all crediting methods are available with every index allocation.  
For financial professional use only – not for use with the public.

## Annual reset

Indexed interest will be credited and locked in on each policy anniversary. At the end of each year, the ending index value becomes the next year's starting value.

## Fixed interest allocation

As an alternative to indexed interest, clients also have the option of allocating part or all of their cash value to a fixed interest account.

Your clients may also select fixed interest for all or a portion of their policy values. The fixed interest rate is guaranteed to never be less than 0.1%. The fixed interest rate may vary by state.

## Interest bonus

A guaranteed interest bonus (available on certain index allocation options) will be credited beginning in policy year 1 on the first policy anniversary and every policy year thereafter. The interest bonus is guaranteed to be equal to 15% of any interest credited in that policy year and is guaranteed for the life of the policy. This does not, however, guarantee a bonus credit each year because it is based on the growth of an index. The bonus credit is spread across all allocations.

A distinguishing factor of our bonus is that it is applied to loaned as well as unloaned values. This means that the entire accumulation value will be credited a bonus, instead of only the unloaned portion, assuming your client has chosen an index allocation that includes the bonus.

## Policy expenses and charges

- **Insurance cost charge:** Based on factors such as age, gender, and risk class.
- **Monthly policy charge:** A policy charge of \$7.50 per policy will be deducted every month on the monthly anniversary.
- **Premium charge:** Premium charges are deducted from both the Current Accumulation Value and Guaranteed Accumulation Value for each premium payment made to the policy. The premium charge for the Current Accumulation Value is 8% in policy years 1-9 and 4% in policy years 10+; the premium charge for the Guaranteed Accumulation Value is 8% in all years.
- **Monthly expense charge:** The expense charge is a per \$1,000 charge of your policy's specified amount, and is based on factors such as the insured's gender, age, specified amount, and risk class. The expense charge is calculated at the time of policy issue. The expense charge is deducted from the Current Accumulation Value for the first 12 policy years, and from the Guaranteed Accumulation Value for the life of the policy.
- **Surrender charge:** 12-year decreasing surrender charge based on age, gender, death benefit amount, and risk class.
- **Rider charges** may also apply.

**For the current rates, caps, floor, and participation rates,** please refer to the current Allianz Life Rate Watch, which can be found at [www.allianzlife.com](http://www.allianzlife.com) or by calling the Life Case Design Team at 800.950.7372.

# Riders and benefits (Terms, conditions, and availability may vary by state.)

Offer your clients  
optional riders with  
**THE TYPE OF  
PROTECTION  
THAT FITS  
THEIR NEEDS.**

## Supplemental Term Rider

Add extra term insurance up to 10 times the base death benefit amount of the policy. The additional coverage is convertible into base coverage within the first 10 policy years or until age 75, whichever is sooner.

- Issue age for this rider: 0-80
- Must be elected at issue
- Minimum rider specified amount: \$25,000
- Maximum rider specified amount:

Juvenile		
Ages 0-17	5x base specified amount	
	Nontobacco	Tobacco
Ages 18-50	10x base specified amount	5x base specified amount
Ages 51+	5x base specified amount	5x base specified amount

- No underwriting is required.
- Rider is not commissionable.
- Maximum allowable conversion amount:

Policy year	Allowable conversion amount
1	Not available
2	25%
3	50%
4	75%
5 – 10	100%

## Waiver of Specified Premium Rider<sup>1,2</sup>

If the insured is totally disabled for at least six months (under the terms of the policy) prior to their 65<sup>th</sup> birthday, we'll credit the policy with the waiver amount the policyholder has specified. The policyholder can specify the amount of premium they would like to waive, with a minimum of \$25 per month. The maximum is the lesser of \$150,000 per policy year or 24 times minimum monthly premium. Receipt of benefits under this rider does not guarantee that the policy will remain in force.

- Issue age for this rider: 18-60
- Rider not available with substandard risk classes or flat extra rating
- Rider is commissionable. Rider can be canceled at any time.

## Enhanced Liquidity Rider (ELR)<sup>3</sup>

This rider waives 50% or 100% of the surrender charges, which can provide greater access to any available cash value in the policy's early years.

- Issue age for this rider: 0-80
- Rider available with substandard risk classes
- Rider cannot be canceled once the policy is issued, unless it is in the free-look period.
- First-year compensation for policies with this rider is spread over a six-year schedule. Refer to your commission schedule for details.
- Rider expires on the last day of the 12<sup>th</sup> policy year, when the surrender period is over.

<sup>1</sup> Additional cost at time of issue.

<sup>2</sup> This rider is not available in all states.

<sup>3</sup> An agent who has a contract with commission advancing will not receive advance commissions on policies with ELR.

For financial professional use only – not for use with the public.

## Other Insured Term Rider<sup>1</sup>

The policyholder can add term insurance for up to four family members other than the primary insured, for as much as four times the base policy's specified amount, while continuing to build their policy's cash value. Coverage can stay in effect to age 100 for each additional insured. This rider provides low-cost term insurance for other family members or business partners.

- Issue age for this rider: 0-80
- Maximum rider specified amount of all lives covered is the lesser of four times the specified amount of the base policy, or \$1,000,000 (whichever is less).
- This rider is not convertible. Rider can be canceled at any time. Rider can be added at a later time, subject to underwriting.

## Waiver of New Charges Benefit

This benefit waives surrender charges, expense charges, and Enhanced Liquidity Rider charges for any coverage increases incurred in years 11+.

## Child Term Rider<sup>1</sup>

This rider provides affordable term insurance for insured's children who are at least 15 days old, but not yet 21 years old, on the date the rider provides coverage, up to \$10,000.

- Issue age of insured: up to age 60
- Issue age of the child: 15 days-21 years
- This rider is fully convertible to an Allianz cash value policy, without additional underwriting, on the earliest of the following dates:
  - The policy anniversary when the child is 25
  - The policy anniversary when the insured is 65
  - The death of the insured if prior to age 65

Also, if the above dates have not occurred, and a child has been covered under this rider for 10 years, this rider can be converted to an Allianz cash value policy.

- Rider can be added at the policy anniversary following the birth or adoption of the insured individual's first child, without additional underwriting.

<sup>1</sup> Additional cost at time of issue.

For financial professional use only – not for use with the public.

## Loan Protection Rider<sup>1</sup>

This rider can prevent the unintentional lapse of your client's policy while there is an outstanding policy loan, if they are between the ages of 75 and 120. We'll notify the policyholder if the loan balance reaches 90% of their policy's accumulation value. The rider is automatically added to the policy when it is issued. The policyholder has the opportunity to opt out of the rider on the illustration. There is no charge if the policyholder does not exercise this rider. Once exercised, there is a one-time charge, which is a percentage of the accumulation value. This rider may be suitable for your clients if they plan on using their available cash value during their retirement years (i.e., deferred compensation plan).

The rider cannot be elected or used if the policy is a modified endowment contract (MEC). This rider cannot be added after policy issue.

- Issue age for this rider: 0-80
- Not available with the cash value accumulation test
- Once you have opted out of the rider, it cannot be added to your policy at a later date.
- May not be available in all states

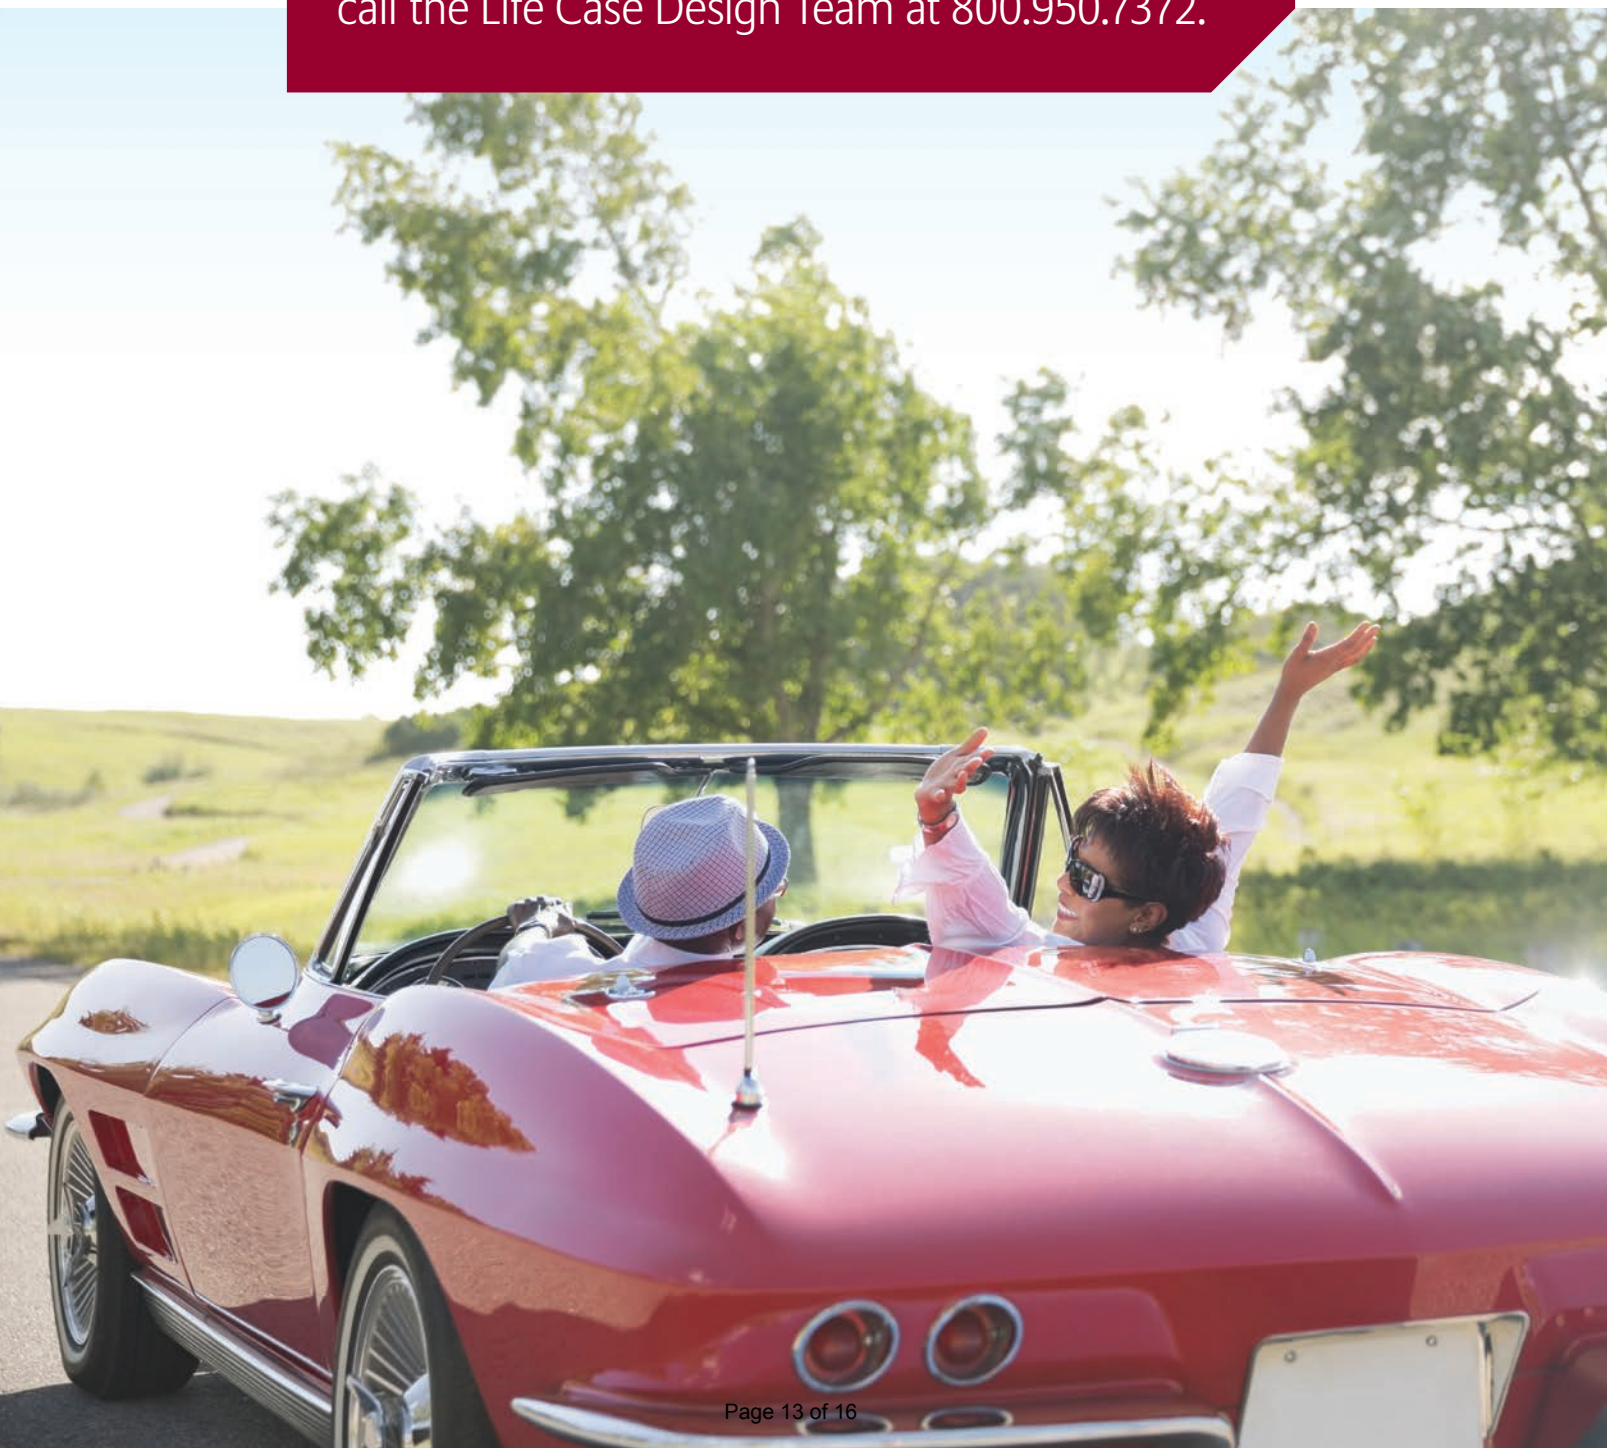

<sup>1</sup> This policy may be purchased with the intention of building cash value on a tax-free basis for some period (such as, until retirement) and then periodically borrowing from the policy without allowing the policy to lapse. The aim of this strategy is to continue borrowing from the policy until its contract value is just enough to pay off the policy loans that have been taken out, and then relying on the Loan Protection Rider to keep the policy in force until the death of the insured. Anyone contemplating taking advantage of this strategy should be aware that it involves significant risk.

This strategy has not been ruled on by the Internal Revenue Service (the "IRS") or the courts and it may be subject to challenge by the IRS on the grounds that the policy has effectively lapsed or been exchanged. It is thus possible that loans under this policy may be treated as taxable distributions when the rider is exercised. In that event, assuming policy loans have not already been subject to tax as distributions, a significant tax liability could arise. Anyone considering using the policy as a source of tax-free income by taking out policy loans should, before purchasing the policy, consult with and rely on a competent tax advisor about the tax risks inherent in such a strategy.

This rider is automatically added to policies issued with the guideline premium test (GPT) only.

Allianz **Life Pro+ Elite** can provide the protection your clients need for today and for their future.

The PIMCO Tactical Balanced ER Index is comprised of the U.S. Equity Futures Custom Index, a bond component comprised of the PIMCO Synthetic Bond ER Index and a duration overlay, and shifts weighting between them daily based on historical realized volatility of the components. The U.S. Equity Futures Custom Index provides exposure to large cap U.S. stocks in excess of a benchmark rate. The PIMCO Synthetic Bond ER Index is comprised of a small number of derivative instruments designed to provide exposure to U.S. Investment-grade and Treasury bond markets in excess of a benchmark rate.

The "PIMCO Tactical Balanced ER Index" (the "Index") is a rules-based index that tactically allocates across U.S. equity and fixed income markets using quantitative signals. The Index is a trademark of Pacific Investment Management Company LLC ("PIMCO") and has been licensed for use for certain purposes by Allianz Life Insurance Company of North America (the "Company" or "Allianz") with respect to this Allianz product (the "Product"). The Index is the exclusive property of PIMCO and is made and compiled without regard to the needs, including, but not limited to, the suitability or appropriateness needs, as applicable, of the Company, the Product, or any Product owners. The Product is not sold, sponsored, endorsed or promoted by PIMCO or any other party involved in, or related to, making or compiling the Index.

Neither PIMCO nor any other party involved in, or related to, making or compiling the Index has any obligation to continue to provide the Index to the Company with respect to the Product. In the event that the Index is no longer available to the Product or Product owners, the Company may seek to replace the Index with another suitable index, although there can be no assurance that one will be available.

**PIMCO disclaims all warranties, express or implied, including all warranties of merchantability or fitness for a particular purpose or use. PIMCO shall have no responsibility or liability with respect to the Product.**

The Index is comprised of a number of constituents, some of which are owned by entities other than PIMCO. All disclaimers referenced in the Agreement relative to PIMCO also apply separately to those entities that are owners of the constituents of the Index.

The EURO STOXX 50®, Europe's leading Blue-chip index for the Eurozone, provides a blue-chip representation of supersector leaders in the Eurozone. The index covers 50 stocks from 11 Eurozone countries: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain.

The EURO STOXX 50® is the intellectual property (including registered trademarks) of STOXX Limited, Zurich, Switzerland ("STOXX"),

Deutsche Börse Group or their licensors, which is used under license. Allianz products are neither sponsored nor promoted, distributed or in any other manner supported by STOXX, Deutsche Börse Group or their licensors, research partners or data providers and STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not give any warranty, and exclude any liability (whether in negligence or otherwise) with respect thereto generally or specifically in relation to any errors, omissions or interruptions in the EURO STOXX 50 or its data.

The Bloomberg US Dynamic Balance Index II is comprised of the Bloomberg Barclays US Aggregate RBI Series 1 Index and the S&P 500® Index and shifts weighting daily, up to 3%, between them based on realized market volatility. The Bloomberg Barclays US Aggregate RBI Series 1 Index is comprised of a portfolio of derivative instruments plus cash that are designed to track the Bloomberg Barclays US Aggregate Bond Index. The Bloomberg Barclays US Aggregate Bond Index is comprised of Bloomberg Barclays US investment-grade, fixed-rate bond market securities, including government agency, corporate, and mortgage-backed securities. The Bloomberg US Dynamic Balance II ER Index is comprised of the Bloomberg Barclays US Aggregate Custom RBI Unfunded Index and the Bloomberg US Equity Custom Futures ER Index and shifts weighting daily, up to 3%, between them based on realized market volatility. The Bloomberg Barclays US Aggregate Custom RBI Unfunded Index is comprised of a portfolio of derivative instruments that are designed to provide exposure to U.S. Investment-grade and Treasury bond markets in excess of a benchmark rate. The Bloomberg US Equity Custom Futures ER Index is designed to provide exposure to large cap U.S. stocks in excess of a benchmark rate.

The Bloomberg US Dynamic Balance Index II (a "Bloomberg Index") is the property of Bloomberg Index Services Limited and is derived and calculated based on the S&P 500 index under license from S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) ("S&P Dow Jones Indices"). S&P® is a registered trademark of Standard & Poor's Financial Services LLC and Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC. S&P 500® is a registered trademark of Standard & Poor's Financial Services LLC and has been licensed for use to Bloomberg Index Services Limited. Neither S&P Dow Jones Indices, its affiliates nor their third party licensors sponsor or promote the Index and no such party shall have any liability in connection with the Bloomberg Index.

BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P. and its affiliates (collectively "Bloomberg"). BARCLAYS® is a trademark and service mark of Barclays Bank Plc (collectively with its affiliates, "Barclays"), used under license. Bloomberg or Bloomberg's licensors, including Barclays as it relates to the Bloomberg Barclays Indices, own all proprietary rights in the Bloomberg US Dynamic Balance Index II and the Bloomberg Barclays Indices (collectively the "Indices"). Neither Bloomberg nor Barclays is affiliated with Allianz Life Insurance Company of North America ("Allianz"), and neither approves, endorses, reviews or recommends the Allianz product. Neither Bloomberg nor Barclays guarantees the timeliness, accurateness or completeness of any data or information relating to the Indices, and neither shall be liable in any way to Allianz, investors in the Allianz product or other third parties in respect of the use or accuracy of the Indices or any data included therein.

# True to our promises ... so you can be true to yours.®

A leading provider of annuities and life insurance, Allianz Life Insurance Company of North America (Allianz) bases each decision on a philosophy of being true: **True to our strength** as an important part of a leading global financial organization. **True to our passion** for making wise investment decisions. And **true to the people we serve**, each and every day.

Through a line of innovative products and a network of trusted financial professionals, and with over 3.6 million contracts issued, Allianz helps people as they seek to achieve their financial and retirement goals. Founded in 1896, Allianz is proud to play a vital role in the success of our global parent, Allianz SE, one of the world's largest financial services companies.

While we are proud of our financial strength, we are made of much more than our balance sheet. By being true to our commitments and keeping our promises we believe we make a real difference for our clients. It's why so many people rely on Allianz today and count on us for tomorrow – when they need us most.

Guarantees are backed solely by the financial strength and claims-paying ability of Allianz Life Insurance Company of North America.

For financial professional use only – not for use with the public.

Product and feature availability may vary by state and broker/dealer.
