

ALLIANZ® FIXED INDEX ANNUITY

Essential Income 7[®] Annuity

Guide to current rates as of 7/1/2025

New business rates are not guaranteed and are subject to change at the discretion of Allianz Life Insurance Company of North America (Allianz). To find the current rates, visit www.allianzlife.com/rates. The participation rate on Allianz® fixed index annuities is 100% unless otherwise noted.

The rates are current only as of the date indicated above. New and pending applications are eligible for a 60-day rate lock where clients are eligible for the higher of the rates available during that period. If a pending application is not fully funded within 60 days of receipt, it will receive the current rates available at the time it is funded.

Benefit charge ¹	Fixed interest
1.05%	3.00%
Annual point-to-point with cap	
S&P 500® Index	5.00%
Bloomberg US Dynamic Balance Index II	4.50%

¹The annual benefit charge is a percentage of the accumulation value, deducted monthly from the accumulation value and guaranteed minimum value (in most states). The annual benefit charge percentage for the guaranteed minimum value is 1.05% for all contract years. The annual benefit charge percentage for the accumulation value is 1.05% for the first contract year. It can change each year during the next six contract years, but will not be more than 2.50% (in DE it will not be more than 2.00%). After the seventh contract year, the annual benefit charge percentage will be 1.05% for all remaining contract years.

The caps and interest rate specified above are set at issue and guaranteed for the first crediting period. Subsequent rates will be set on each contract anniversary. The minimum annual cap for the annual point-to-point with cap crediting method is 3.00% for the first seven contract years. After the seventh contract year, the annual cap will never be less than 0.25%. The minimum fixed interest rate is 1.00% for the first seven contract years. After the seventh contract year, the annual credited rate will never be less than 0.10% per year. Rates may vary by state.

The lifetime withdrawal percentage table is set at issue based on the date Allianz receives the application and is guaranteed for the life of the contract.

The indexes available within the contract are constructed to keep track of diverse segments of the U.S. or international markets, or specific market sectors. These indexes are benchmarks only. Indexes can have different constituents and weighting methodologies. Some indexes have multiple versions that can weight components or may track the impact of dividends differently. Although an index may affect interest credited, clients cannot purchase, directly participate in, or receive dividend payments from any of them through the annuity contract.

Lifetime withdrawal percentages

This table shows the base withdrawal percentages and annual increase percentages that will apply based on when lifetime withdrawals are started according to the **Essential Income Benefit**. The initial lifetime withdrawal is calculated by multiplying the lifetime withdrawal percentage by the greater of the accumulation value or the net premium.

Option 1 offers steady, predictable lifetime withdrawals.

Option 2 offers lifetime withdrawals with the potential to increase.
