

Information on this fund is no longer available at this location. For more information regarding this fund please refer to the Price And Performance section of this website.

The screenshot shows the Allianz website's navigation bar with the Allianz logo on the left and links for My Account, Contact Us, Log Out, and a search bar containing "e.g. Annuities". Below the navigation bar are links for HOME, ACCOUNTS, PRODUCTS, MY PERFORMANCE, KNOWLEDGE CENTER, and FORMS & MATERIALS. At the bottom of the navigation bar, it says "Allianz Life Insurance Company of North America | Allianz Life Insurance Company of New York".

The main content area is titled "Price And Performance" and includes a sidebar with links: All Products, Tools & Calculators, Compare Products, Variable Prospectuses, Current Rates, Variable Price And Performance (highlighted), and Tracked Investment Options.

The main text explains that performance information is based on past performance and is not a guarantee of future results. It includes a search box with a "Search By" label, a "Select ..." dropdown menu, and a blue "Search" button.

The text continues with a disclaimer: "Performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment return and principal value will fluctuate with market conditions, so that units, when redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance information quoted. To access the most current month-end performance, please click the Standardized tab above."

It then explains that performance is calculated on the basis of historical performance of each investment option, showing actual performance from the date the Separate Account began investing and performance from the inception date of the investment option as if the variable annuity contract existed at that time.

The section titled "Standardized performance" states that standardized performance information reflects the deduction of the Mortality and Expense risk (M&E) charge and any applicable administrative charge for all listed products except the following variable annuities, which do not have M&E charges:

- Allianz Index Advantage® Variable Annuity and Allianz Index Advantage® New York Variable Annuity reflect deduction of the product fee,
